

GeForce™ 8800 Ultra

768MB [384bit] GRAPHICS CARD

XFx Part Numbers:
PV-T80U-SHD(*) XXX
PV-T80U-SHE(*) XT
PV-T80U-SHF(*)

Bus
PCI-E
Profile
Double
Output
Dual DVI

Graphics So Real, You'll Feel Guilty After Every Kill.

With the worlds first DirectX10 GPUs feature a unified architecture and unprecedented levels of graphics performance, the 8800 Ultra delivers the ultimate in gaming performance. With unbelievable realism through faster core and memory clock speeds, this graphics card holds nothing back.

- Unified Architecture
- Lumenex Engine
- 128 Bit FP HDR (High Dynamic Range)
- GIGA Thread: Batch processing / Load Balancing
- Quantum Engine: Embedded Physics features
- Geometry Creation (Instancing)
- SLI Support
- HDCP Ready
- Dual Dual-Link DVI

Dual Dual-Link Technology

Supporting digital output up to 2560x1600 on two LCD Monitors at the same time.

HDTV Ready and HD Gaming

High-definition video playback and crisp picture quality. Provides world-class TV-out functionality up to 1080i resolution.

SLI Ready

Delivers up to 2x the performance of a single GPU configuration for unparalleled gaming experiences by allowing two graphics cards to run in parallel. The must-have feature for performance PCI-Express graphics, SLI dramatically scales performance on over 60 top PC games.

Dual DVI

Able to drive the industry's largest and highest resolution flat-panel displays.

DVI to Analog Adapter

Includes DVI to Analog Adapter to convert your old VGA output to DVI connector.

HDCP

High-bandwidth Digital Content Protection (HDCP) is a technology to protect digital entertainment content. HDCP has been implemented across both DVI and HDMI interfaces.

Double Lifetime Protection

Our exclusive Double Lifetime Protection guarantees the quality and dependability of our card for both you and the second owner.
